

## SPEED DETECTION TRAILER REQUEST FORM

The Chaska Police Department utilizes a mobile speed detection trailer to aid in speed enforcement. The trailer encourages drivers to slow down by displaying their speed as well as the posted speed limit. The trailer has the capability of recording a vehicle's speed as well as the number of vehicles which pass by the trailer. The speed trailer has the capability of taking photos but does not record vehicle registrations or drivers' information. We can utilize statistics from the trailer to determine what additional enforcement activity may be effective in the area.

As speed awareness goes up, motorists slow down, even after the unit is moved to a different location. With fewer speed-related accidents, law enforcement personnel's time is freed up, and they can concentrate their efforts on other issues. Plus, residents feel safer, which is what compliance with the speed limit is all about: safety.

If you would like to request the speed trailer be placed in a specific area, complete and submit the form below. Your request will be placed in the order received. Placement also depends on current weather conditions.

**Name:** \_\_\_\_\_

**Address:** \_\_\_\_\_

**Phone Number:** \_\_\_\_\_
